# SANTA VADER

Track 02 from the album « Kurisu Mass »
Lyrics by Mad-Dog
STARRYSKY
2015

I am dreaming of Darth Vader
He always comes to my planet once a year.
With Toys made of tatooine's rocks
Teddy Bears made with dead Ewoks

For Christmas i want Darth Vader
Winter is better with the stormtroopers
He travels faster than Santa
presents made by enslaved Jawas

He's coming tonight with a Death Star full of presents for me
Lights of planets that he will destroy
bring us happiness and joy

Better than Santa, Darth Vader
Better than Granma, Darth Vader
Give me a broken C3PO
Under the mistletoe

Better than Santa, Darth Vader
Better than Granma, Darth Vader
Can you bring me the whole galaxy
Under the christmas tree

Happiness comes with Darth Vader
He's really the perfect guest for dinner
His light saber can cut the turkey
He will cook fried wookie

He's coming tonight with a Death Star full of presents for me
Come to the dark side, have a cookie
The best of the galaxy

Better than Santa, Darth Vader
Better than Granma, Darth Vader
Give me a frozen Han solo
Under the mistletoe

Better than Santa, Darth Vader
Better than Granma, Darth Vader
Can you bring me the whole galaxy
Under the merry christmas tree

And can you give me Jar-Jar's Head ?

Oh I really want Jar Jar Dead

Today, feelin so lonely
Don't wanna eat, don't wanna play, just wanna go away
Tonight is still sadly trite.
When I'm looking anywhere else, everything shines so bright

Fleeing from the grey of the air, taking a walk staying in my chair.
Trying to clear my mind, to leave it all behind
Navigating late in the night, feeling the love crossing my sight.
And that's pushing me into the light

I see your face only blue, red and green.
Picture your moves on a dream figurine
We wove a web so hard that your heart is connected to me.

I hear your voice, every word on the screen.
Feel your presence comin through the machine.
Sitting by my windows, here we made all the best memories

# I LOVE YOU FOOD

Track 05 from the album « Kurisu Mass »
Lyrics by Sasha Brown & Tai Shindehai
STARRYSKY
2015

Years passing by, one after one another
But this year’s end seems to have no colors
We played such a game of sweet temptation
I can’t go back now, I have to resist oh !

As you approach I feel my heart beat on beat
As I can see you glowing through the night
No repetition, and no concession
Don’t glance at me so, I can’t let you go

Cause somehow I need you
And I need to feel you
I want to be with you without the price
It costs to me to share our love
You’re driving me insane
The fat runs in my veins
So I begin to do some concessions
To be one day with you again

Mama said life isn't only about eating
Easy to say when you keeping that body thin
Mushamusha love you so much,
Food you my mood, god you so good, you are my crush
I want these potatoes let them fry
Meeting the meat I can't say goodbye
Can never get enough, eating that stuff
Diet is me to die you yule log me off

Cause somehow I need you (I want these potatoes let them fry)
And I need to feel you (Cannot reach it is makin me cry)
I want to be with you without the price
It costs to me to share our love
You’re driving me insane (mogu mogu mogugubi gubi gubi)
The fat runs in my veins (takin takin takin it into ma gob)
So I begin to do some concessions
To be one day with you again

And in my dream we’re watching the sun together
And calories don’’t have their importance (I don’t have a care)
Maybe one day Life’ll return to me her flavour
And I’ll stay thin while eating hamburgers

Cause somehow I need you
And I need to feel you
I love you food, so much, but now I can’t
Why had I to be on diet ?

The point of no return
I’ve made a decision
Let’s say I’ll do my sport again later
And start this year back together !

I eat it all

# ☆CAPSULE☆

Bonus 01 from the album « Kurisu Mass »
Lyrics by Thomas Cyrix
STARRYSKY
2014

No misery, no irony
It’s time to take a shot
No destiny, wide liberty
Feelings become so hot

Under the stars, over the sea
I remember my spot
Right in my heart, right over me
In love with you, why not?

I’m at my best, it’s time to start
Activation
Remember when you catch my heart
That exaltation

I wanna see my liberty, my legacy, I wanna be legendary
My time capsule
Contains my secret history
Yeah, I wanna see my liberty, my legacy, I wanna be legendary
My time capsule
Lies in me, waiting for your passion

Deep in my eyes, deep in my soul
Something is coming up
I am ready, for something cool
It’s time for some show-up

I’m at my max, going to start
Evolution
Remember when you catch my heart
My hesitation

---

I wanna see my liberty, my legacy, I wanna be legendary
My space capsule
Retains my real history
Yeah, I wanna see my liberty, my legacy, I wanna be legendary
My space capsule
Lies in me, until you can open the door

# ...YOU HAVE A MESSAGE

Bonus 02 from the album « Kurisu Mass »
Lyrics by Thomas Cyrix
STARRYSKY
2015

This is the end, my liberty, my history
This is the end, I'm what I wanna be
This is the end, my liberty, my victory
I apprehend what will now my life be

I will never forget that in hard times you were all behind me
I will never forget what is your legacy

That was my fight, against myself, against my fears
Feelings were right, we broke up all frontiers
Day after day, tirelessly, I straighten up
Day after day, blasting my power up !

The long night where I lived alone is now finally far away
The sun is blinding me, it's time to live my way

In your dreams
This is a message in a bottle from a bright future,
You have to know that failures will never matter

If you search for something to believe in
You don't need to go so far
You deeply know you've always been
The falling star

Now, between dreams and wakeup
When you hear my melody
This moment will never end up
Past is repeating endlessly

You're not a toy left on the shelf
All you need is to rock yourself

---

Don't want anymore that humanity
Stops being my family
Here I was fighting for more space
And I found here my perfect place

I believed that I wanted to stay under the halogen
Now I got it; you are my past, my oxygen

You're not a toy left on the shelf
It's now time to become yourself
